Military Ammunition Dump, Horazdovice (N50/039)

1. About one kilometer south of the Horazdovice railroad station, an army ammunition dump has been built. The project consists of five brick buildings, two of which are for the storage of fuses and three for the storage of munitions. There is also a guard house and a wooden barracks building; the entire complex is surrounded by barbed wire. Civilians are forbidden to enter the area.
2. A new road from the Horazdovice-Milutin (N50/049) highway leads to the dump. The dump was constructed by the Armastav firm and building materials such as gravel and sand were supplied by the Podista firm from the quarry at Hejna (N50/032). Josef Harmach was in charge of the construction work. About 60 men, including some 40 soldiers are presently employed at the dump.

Military Ammunition Dump near Brhovice (050/191)

3. On the Tabor (050/L01) - Pisek (N50/069) highway, about 1.5 kilometers south of Drhovice (050/L91), a new army ammunition dump is under construction. So far, two wooden barracks with a capacity of 20 persons each have been built, and the foundations have been laid for other buildings. The work is being done by the Konstruktiva Enterprise, and in addition to civilian employees, soldiers belonging to the Tabor garrison are also working on the project. The area, which is under military guard, is off limits to civilians.
